

CUSTOMER NOTICE

On March 6, 2009, the Mid-Tex Division of Atmos Energy Corporation (Atmos Energy or the Company), filed for approval of a Rate Review Mechanism (RRM) to increase its natural gas rates and implement a new schedule of rates and riders. This filing is applicable to all customers within all incorporated cities served by the Mid-Tex Division with the exception of the City of Dallas. The proposed effective date of the requested rate changes is July 20, 2009. If approved, the proposed changes will affect approximately 1,186,634 residential, 97,855 commercial and 790 industrial and transportation customers.

If approved, the proposed rates will increase the Company's annual revenues for the affected incorporated areas of its Mid-Tex Division by \$9,735,814, or 0.67 percent, including gas costs, or 3.40 percent, excluding natural gas cost. The proposed change in rates constitutes a "major change" as that term is defined by Section 104.101 of the Texas Utilities Code.

Based on the proposed rate design, the typical monthly bill for each customer class within the affected incorporated areas of the Mid-Tex Division will increase by the amount and percentage shown in the table below:

Customer Class	Current Bill	Proposed Bill**	Difference	Increase with Gas Cost	Increase without Gas Cost
Residential	\$85.97*	\$86.51*	\$.54	0.63%	2.49%
Commercial	\$363.79*	\$364.88*	\$1.09	0.30%	2.39%
Industrial	\$3,724.55*	\$3,738.82*	\$14.27	0.38%	2.65%
Transportation	\$631.86	\$646.13	\$14.27	2.26%	2.65%

NOTES: Effects of bills are subject to varying tax rates among the cities.

* Includes Rider GCR Part A cost of \$9.48 per Mcf.

** The calculation of bill effects assumes monthly consumption of 6 Mcf for residential, 30 Mcf for commercial and 300 MMBtu for industrial and transportation customers.

In addition to the rate revisions in Rate Schedules R, C, I, and T, other proposed tariff changes include updates to factors included in Rider WNA and revisions to the Rider GCR to allow the recovery of gains and losses as well as transaction costs associated with financial hedging transactions.
