

Dear Atmos Energy Customer:

This notice provides you with information about Atmos Energy Corporation's ("Company") energy efficiency program filed with the Public Utilities Commission of the State of Colorado ("PUC") which will affect all residential, commercial and public authority customers taking service from the Company. The PUC approved the Company's 2009 – 2010 Demand Side Management ("DSM") Plan and the associated estimated costs which became effective on March 1, 2009.

DSM programs are designed to promote and fund energy efficiency. DSM costs incurred pursuant to PUC Rule 4750 are allowed to be recovered through a DSM cost adjustment mechanism. Please visit our Web site, www.atmosenergy.com, for additional information on this program as well as other helpful tips on saving energy. The residential, commercial and public authority Facilities Charge and Local Distribution Charge (LDC) have increased as shown below and the effect on the average bill is highlighted in yellow.

Continued on reverse side

Division	RESIDENTIAL			COMMERCIAL/PUBLIC AUTHORITY		
	Previous Rate	New Rate	Change	Previous Rate	New Rate	Change
