

Lower Your Energy Costs. Increase Your Profits.

Atmos Energy's 2017 Custom Energy-Efficiency Program can help Colorado commercial and industrial customers can take control of their energy costs.

This custom program offers technical assistance and financial incentives for energy-efficient upgrades to qualified Atmos Energy customers in Colorado.

What incentives are available?

This program offers two financial incentives to help lower your businesses energy costs.*

Technical Assistance: Get up to \$7,500 towards the cost of a detailed energy audit for your facility.

Implementation Installation Assistance: Receive up to \$50,000 for the installation of eligible measures and equipment that reduce natural gas usage.

Which customers are eligible?

The following Atmos Energy customers in Colorado can participate:

- Multifamily
- Large commercial and industrial
- Customers with unique equipment needs or applications
- Single-family homes larger than 6,000 square feet
- Transportation and irrigation gas customers are NOT eligible.
- Existing building retrofits and new construction are eligible.

When is program enrollment?

The Colorado 2017 Custom Energy-Efficiency program is available January 1 through December 31, 2017 or until funding is fully allocated.

How do I apply?

Visit www.atmosenergy.com/COefficiency to download the Instructions and Guidelines document and all forms. An Eligibility Assessment must be completed and approved prior to requesting technical or implementation assistance. After the technical study and implementation review are completed, customers can submit a request for payment of financial incentives.

Who do I call for more information?

For questions, contact Atmos Energy's Program Administrator at 303-661-0159 or custom@mesapointenergy.com.

**All proposed energy audits and eligible measures must be reviewed and approved by the Program Administrator prior to purchase of equipment and installation.*

2017 Colorado Custom Energy-Efficiency Program Details

Step-by-step Process for Program Participation

All program forms and instructions can be found at www.atmosenergy.com/COefficiency. All completed forms should be emailed to custom@mesapointenergy.com.

Step 1: Eligibility Assessment and Review

Complete and submit the Eligibility Assessment form. The Program Administrator will conduct a phone interview and possible site visit. Approval of Eligibility Assessment must be received prior to requesting a technical study or implementation assistance.

Step 2: Apply for Financial Incentives

The program offers two financial incentives - Technical Study and Implementation Installation - which are identified and approved through the Eligibility Assessment.

Step 3: Incentive Request

After completion of the Technical Study and/or Implementation Installation, the customer should submit the Incentive Request form for payment of financial incentives.
