Commercial & Industrial Boiler Tune Up Rebate Application

| Boiler Tune Up Rebate Amount | Rebate amount |
|---|---|
| Boiler tune up (complete the service checklist below) | Boilers < 800, 000 BTU/hr. (\$100 per boiler tune up) |

Boiler Tune Up - Service Check List

The checklist below applies to boilers with forced air induction only.

- Measure combustion efficiency using an electronic flue gas analyzer. Attached pre and post measurements with application.
- Adjust airflow and reduce excessive stack temperatures.
- Adjust burner and gas input, manual or motorized draft control.
- Clear the burners, combustion chamber and fire-side exchange surfaces.
- Inspect and clean the burner nozzles.
- Check for proper venting, system piping, insulation and safety controls

To process process the boiler tune up rebate payment in a timely manner, make sure to submit the following:

- Completely fill out the rebate application including the customer account number.
- Along with the rebate application, submit an invoice showing the labor for the boiler tune up.
- Include the pre and post combustion efficiency measurements.

Allow 4 to 8 weeks for rebate processing. Rebate checks will be issued to the name listed on the Atmos Energy account.

Mail, fax or email completed paperwork to:
