

# We're investing in a safe, reliable natural gas system. **From the ground up.**

## Project Details

### Where is work being done?

- North-to-South from SW 7th Ave to Line Ave & East-to-West from S Georgia St to S Bonham St
- North-to-South from W 4th Ave to SW 15th Ave & East-to-West from Crockett St to S Adams St

### Dates:

Work in Amarillo began in October 2017 and is expected to be complete in October 2018.

### How will this impact me?

Before work begins in your neighborhood, we will place a door tag at your home. Once construction is started, it could cause a temporary disruption to your natural gas service. If this happens, we will talk to you or leave a door tag with next steps to restore service.

### Why are you replacing pipelines?

We are upgrading aging infrastructure with newer pipe to increase the safety and reliability of our system. The new gas lines require less maintenance and meet all current safety requirements.

### Customer Service

888.286.6700

### Emergency Service

866.322.8667

## Investing in Safety for You

Atmos Energy is committed to being the safest natural gas provider in the nation and in Texas. That's why we're investing millions in system upgrades.

In 2018, our efforts in Texas will focus on upgrading several miles of natural gas pipelines located in city streets, including the gas line that connects to your meter.

## Natural Gas Pipeline Upgrades

When upgrading our natural gas lines, you'll see us working in streets and yards. This may include cutting holes in streets and driveways, plus digging in some yards. While work is going on, we will make temporary repairs to yards and sidewalks. When the work is complete, we will make arrangements with you to restore affected areas to their previous conditions.

We do work closely with the City of Amarillo to limit the impact to you and other residents. We appreciate your patience as we work to finish the project safely and quickly as possible.
