

We're investing in a safe, reliable natural gas system for Greeley. **From the ground up.**

Project Details

When and where is work being done?

- Feb. - Sept. 2018
- East-to-West from 4th Ave. to 17th Ave. along 20th St.
- North-to-South from 14th St. to 20th St. in alley between 11th Ave. & 12th Ave.
- East-to-West from 23rd Ave to 35th Ave along 20th St.
- North-to-South from 10th St. to 20th St. and East-to-West from 11th Ave. to 14th Ave.

How will this impact me?

Before work begins in your neighborhood, we will place a door tag at your home. Once construction is started, it could cause a temporary disruption to your natural gas service. If this happens, we will talk to you or leave a door tag with next steps to restore service.

Investing in Safety for You

Atmos Energy is committed to being the safest natural gas provider in Colorado. That's why we're investing millions of dollars in system upgrades.

In 2018, our efforts in Greeley will focus on upgrading about 6,500 feet of natural gas pipelines located in city streets, including the gas line that connects to your meter.

Natural Gas Pipeline Upgrades

When upgrading our natural gas lines, you'll see us working in streets and yards. This may include cutting holes in streets and driveways, plus digging in some yards. While work is going on, we will make temporary repairs to yards and sidewalks. When the work is complete, we will make arrangements with you to restore affected areas to their previous conditions.

We do work closely with the City of Greeley to limit the impact to you and other residents. We appreciate your patience as we work to finish the project safely and as quickly as possible.
